Background: The purpose of this workshop is for third-party Demand Response Providers (DRPs) to provide a briefing on their Demand Response (DR) program results as filed in the Load Impact Protocol final reports on April 16, 2021. At this workshop, the DRPs will provide a highlight on the performance of their DR portfolios.

The [Load Impact Protocols](#) (LIPs) are a comprehensive set of procedures for estimating the load impacts of Demand Response (DR) resources. LIP evaluation plans and studies are conducted annually and filed for review. For procedural details relating to the LIPs, its record development process, and the role of this workshop within the proceeding ([R. 13-09-011](#)), please refer to [D. 08-04-050](#), “Decision Adopting Protocols for Estimating Demand Response Load Impacts,” adopted on April 24, 2008.

The CPUC contact regarding this proceeding is Natalie Guishar at natalie.guishar@cpuc.ca.gov.
